BILLING CODE 6717-01-P
DEPARTMENT OF ENERGY
FEDERAL ENERGY REGULATORY COMMISSION

18 CFR Part 35

[Docket No. RM14-11-000]

Open Access and Priority Rights on Interconnection Customer's Interconnection Facilities

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed rulemaking; correction.

SUMMARY: This document contains corrections to the proposed rule (RM14-11-000) which published in the *Federal Register* of Friday, May 30, 2014 (79 FR 31061). The regulation proposed to amend regulations to waive the Open Access Transmission Tariff requirements, the Open Access Same-Time Information System requirements of its regulations, and the Standards of Conduct requirements of its regulations, for any public utility that is subject to such requirements solely because it owns, controls, or operates Interconnection Customer's Interconnection Facilities, in whole or in part, and sells electric energy from its Generating Facility, as those terms are defined in the *pro forma* Large Generator Interconnection Procedures and the *pro forma* Large Generator Interconnection Agreement and adopted in Order No. 2003. The Commission proposed to find that requiring the filing of an Open Access Transmission Tariff is not necessary to prevent unjust or unreasonable rates or unduly discriminatory behavior with respect to Interconnection Customer's Interconnection Facilities over which interconnection and transmission services can be ordered pursuant to sections 210, 211, and 212 of the

Federal Power Act.

DATES: Comments are due July 29, 2014.
